Art Unit: 3632

This is an office action for serial number 10/787,150.

Allowable Subject Matter

The indicated allowability of claims 39-41 is withdrawn in view of the newly discovered reference(s) to Shamoan and Trussell. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 39 and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Trussell 590,175. Trussell discloses a reading stand comprising a reading platform (1), at least one page holder including a holder housing portion (4 and 5), a center planar portion (6a), an arcuate flange (6), an aperture (opening between 6a and 6).

Claims 39 and 41 are rejected under 35 U.S.C. 102(e) as being anticipated by Shamon 2002/0044819 A1. Shamon discloses a reading platform (12 and 16), at least one page holder (70, 72, 76, 78, 79), a holder housing portion (80), a center planar portion (88 and 96), an arcuate flange (92, and 90), an aperture (between 96 and 88), a respective housing (82).

Allowable Subject Matter

Claims 1, and 4-38 are allowed.

Art Unit: 3632

The following is an examiner's statement of reasons for allowance: regarding claims 1, 4-19, 22, 23, the prior art does not disclose a base panel including a prop slot, the prop member extendable through the prop slot to extend exterior to the base member case so as to provide a hanger for the reading stand.

Regarding claims 20, 21, and 24-38 the prior art does not disclose at least one side support clip disposed upon the reading platform, the side support clip adapted to support the reading platform upon a base sidewall of the base member case.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
